Dear . . .

By: Jesper Christiansen

Day 47

Dear diary

There is not much to say today as it is just another day with work, cleaning and some news about the meteor. I watched it before I went to bed and yeah I understand why the scientists were worried that it would cause mayhem. Please continue to stay away shooting stars as I am not missing your stupid sound. If they appear again I will start sleeping with music in my ears.

Good night diary.
